

CARPET BLOWERS

SERIES SDF

INTRODUCTION

A multi-purpose centrifugal Air Blower, otherwise referred to as a snail fan, may be used to cool, ventilate and dry – walls, furniture and more typically, floors and carpets. This portable utility type fan is suitable for a variety of work spaces including homes, garages, basements, workshops, warehouses, offices and even those hard to reach tight spaces. Ideal for janitorial cleaning, paint drying and water damage restoration drying applications.

FEATURES

- Designed for commercial and extended use
- Precision engineered impeller for maximum efficiency and performance
- Robust and durable high density polypropylene housing
- Telescopic handle and wheels to enhance mobility
- Protective guards to protect impeller and motor
- 3 speed setting and safety guard
- Lightweight with carry handle and power cable
- One year warranty
